

SERIES D150 Fixed Inflatable Dock Seal

BENEFITS

- ▶ **SAVE** hundreds of dollars in reduced energy costs
- ▶ **IMPROVE** working conditions by keeping dust, dirt, debris & insects out
- ▶ **PROTECT** product & personnel from harsh weather conditions
- ▶ **INCREASE PRODUCTIVITY** by providing a safe & comfortable working environment
- ▶ **DURABLE** range of Hi-Performance fabrics to choose from
- ▶ **CUSTOM** sizes available

Generally designed to suit 8' wide x 8' high openings. The Series D150 reduces pressure against the building wall unlike conventional pads while creating a tight energy saving seal against the back of the truck.

A one piece air bag construction with a unique internal baffle system creates a square faced design increasing contact area. This design ensures that off-centre trailers & even trailers that are not spotted square to the opening are sealed.

LDC offers a wide variety of custom inflatables to satisfy your dock requirements

- Square faced design creates larger contact area against truck
- Pressure treated non-rot wood framing
- 24" yellow guide stripes for accurate truck placement
- Externally mounted motor with galvanized protective hood
- Higher wedged header design seals a variety of trailers
- Custom sizes and projections available
- Available in 22 oz Hi-Tear Vinyl or rugged 16 oz Hi-Tear Hypalon

Also available is the E150 with bubble design on header and sides
